

The Housing Executive use the scoring system below to assess how many points you are awarded because you need help to take care of yourself or your home

The Housing Executive has two levels of support:

- you need help to do the action
- You cannot do the action by yourself

The level of support the Housing Executive decides you need can change from section to section. For example, you may need help to get in or out of bed but you cannot go shopping by yourself.

The Housing Executive will assess you for your ability to take care of yourself. You can get a maximum of 14 points.
